Preparing your machine for service

Make a list of everything that you're concerned about in relation to your machine. This is really important because it's Murphy's Law that you will arrive at the shop to drop off your machine and you will forget that one thing that has been bugging you!

In addition to this pack all of the following items, even if you don't use them:

- Foot control
- Power Cord
- Bobbin Case
- Empty Bobbin
- Knee Lift
- Spool Stopper
- Foam Stopper
- #1 Foot - this could be one of these #1, #1C or #1D
- Buttonhole Foot
- Bernina Stitch Regulator (BSR)
- Extension Table - the one that came with your machine
- Oil
- Trolley bag OR your Dust Cover
- Embroidery Module - If you have one

This sounds like a lot and it is! You probably haven't ever taken all of these items to a service before. At Cutting Cloth we do a comprehensive service. Every single one of these things is important for us to check so we can make sure you are getting the most out of your machine and that it is performing at its absolute best!

We are looking forward to taking care of your machine!

Kind regards

Joshua Wulfsohn
Bernina Machine Technician
